## NABL CERTIFICATION

Quality Solutions is a leading NABL laboratory accreditation consultant in India, NABL laboratory accreditation service providers in India, NABL accreditation provider consulting agency located at Noida, NCR, India.

We can help laboratories interested in achieving NABL accreditation with our technical and managerial consultancy services. We can help organizations in achieving ISO 17025/15189 NABL accreditation through National accreditation board of testing and calibration laboratories in India. We are a team of engineers and management graduates and having more than a decade experience in helping organizations in achieving ISO 17025/15189 NABL laboratory accreditation in India. We can help organizations in achieving NABL ISO 17025/15189 laboratory accreditation through preparation of Quality manual, Technical manual, required procedures, templates and guiding laboratories in complying with NABL accreditation requirements in India such as inter laboratory comparison, measurement uncertainty calculation etc.

The certification from NABL is provided to the laboratories that are working in the major scientific fields such as Chemical, Biological, Electronics, Electrical, Fluid-Flow, Mechanical, Photometry, Non-Destructive, Thermal & Forensics testing facilities, Radiological, and, Mechanical, Electro-Technical Fluid Flow, Optical & Radiological Thermal, under Calibration facilities. The accreditation is provided to the medical laboratories too. The major industrial areas where this certification is applied include Textiles, automobiles, power, food, environment, health, petroleum, and Telecommunication. It is essential to fulfill the NABL certification requirements for the laboratories in both private and public sector.

The biggest benefit for a laboratory of passing the NABL certification process is that it gives better credibility and competence of the test results release by the lab.

## BIS CERTIFICATION

BIS Certification is a **means for providing a third-party guarantee of quality, safety, and reliability of products to the customer**. Generally, the BIS Certification is voluntary in nature. However, the Government of India has made BIS certification mandatory for certain products taking into consideration public health.

BIS has been providing traceable and tangible benefits to the national economy in a number of ways – providing safe reliable quality goods; minimizing health hazards to consumers; promoting exports and imports substitute; control over proliferation of varieties etc. through standardization, certification and testing.

The Product Certification Schemes of BIS aims at providing Third Party assurance of quality, safety and reliability of products to the customer. Presence of BIS certification mark, known as Standard Mark, on a product is an assurance of conformity to the specifications. The manufacturer is permitted to self certify the licensed products after ascertaining its conformity to the Standard. Through its surveillance operations, the **Bureau maintains a close vigil on the quality of certified goods**. The conformity is ensured by regular surveillance of the licensee's performance by surprise inspections and testing of samples, drawn both from the market/factory.

## R2 Certification

### Unlocking Sustainable Practices with R2 Certification for E-Waste Management

As technological advancements continue to reshape our lives, the rapid turnover of electronic devices has led to a staggering increase in electronic waste (e-waste). The responsible management of e-waste has become an imperative to mitigate environmental hazards and promote resource conservation. Amid this critical need, the R2 Certification emerges as a beacon of sustainable e-waste management practices, ensuring a positive impact on both our planet and society.

#### Understanding R2 Certification:

R2 (Responsible Recycling) Certification is a globally recognized standard that sets forth stringent guidelines for the safe and environmentally sound management of electronic waste. This certification addresses a range of critical factors, including data security, worker health and safety, and proper disposal of hazardous materials. Organizations that achieve R2 Certification demonstrate their commitment to ethical, sustainable, and responsible practices throughout the entire lifecycle of electronic devices.

#### Key Benefits of R2 Certification:

**1.Environmental Conservation:** R2 Certification mandates responsible recycling practices that minimize the release of harmful substances into the environment. This not only prevents soil and water pollution but also reduces the carbon footprint associated with improper e-waste disposal.

**2.Data Security:** In an era of growing concerns about data breaches, R2 Certification emphasizes secure data management during the disposal and recycling process. This ensures that sensitive information is properly handled, safeguarding both individuals and businesses from potential breaches.

## R2 Certification

**3.Worker Health and Safety:** The R2 standard places a strong emphasis on worker health and safety, ensuring that employees in the recycling industry are protected from potential hazards. This fosters a culture of responsibility and care within the organization.

**4.Resource Recovery:** R2 Certification encourages the recovery of valuable materials from discarded electronics, reducing the need for new raw materials and lessening the strain on natural resources.

**5. Positive Reputation:** Achieving R2 Certification showcases an organization's commitment to sustainability and responsible practices. This can enhance brand reputation and attract environmentally conscious customers and partners.

### **Partnering for a Sustainable Future:**

Earning R2 Certification is a proactive step toward aligning your organization with global efforts to combat e-waste challenges. By ensuring the proper handling, recycling, and disposal of electronic devices, you contribute to a healthier environment, stronger communities, and a more sustainable future. R2 Certification not only benefits your organization but also plays a pivotal role in advancing the global transition toward circular economies and responsible consumption.

### **Conclusion:**

The journey to R2 Certification is a commitment to forging a sustainable path in the realm of electronic waste management. By adhering to the highest standards of responsibility, ethics, and environmental stewardship, organizations can be at the forefront of positive change. R2 Certification signifies more than just compliance – it's an emblem of dedication to safeguarding our planet and shaping a better tomorrow for generations to come.

## Carbon Credit and Carbon Foot Print

Our consultancy offers comprehensive expertise in the areas of carbon footprint assessment and carbon credits management. As environmental concerns and sustainability become central to business practices, understanding and effectively managing carbon emissions are essential. We provide tailored solutions to individuals, organizations, and governments to measure their carbon footprints accurately and navigate the complexities of carbon credits.

### Carbon Footprint Assessment:

Our consultancy specializes in conducting thorough carbon footprint assessments for entities of all sizes. Using state-of-the-art methodologies, we analyze various aspects of your operations, from energy consumption to supply chains. Our experts identify emission sources, quantify greenhouse gas outputs, and offer insightful recommendations for reducing your carbon footprint. By understanding your environmental impact, you can make informed decisions to optimize resource usage and enhance sustainability practices.

### Carbon Credits Management:

Navigating the world of carbon credits can be intricate. Our consultancy guides clients through the process of offsetting their carbon emissions effectively. We help you identify suitable carbon offset projects, such as reforestation initiatives, renewable energy installations, and waste reduction programs. Our experts manage the procurement and retirement of carbon credits on your behalf, ensuring compliance with international standards and regulations.

## Carbon Credit and Carbon Foot Print

Benefits:

Partnering with our consultancy offers numerous benefits:

**Environmental Responsibility:** By accurately measuring your carbon footprint and investing in carbon credits, you demonstrate your commitment to environmental responsibility and contribute to global emission reduction efforts.

**Cost Savings:** Identifying areas to reduce emissions often leads to energy efficiency improvements, ultimately resulting in cost savings.

**Market Leadership:** Embracing sustainable practices enhances your brand reputation and positions you as a leader in sustainability within your industry.

**Regulatory Compliance:** Many regions have emissions regulations in place. Our consultancy ensures your compliance while also exploring opportunities for voluntary emissions reduction.

**Global Collaboration:** Engaging in carbon credits fosters collaboration on a global scale and supports initiatives aligned with international climate agreements.

**Tailored Approach:**

We understand that each client's needs are unique. Our consultancy offers personalized strategies that align with your goals, operations, and industry. Whether you're a small business aiming to reduce your carbon footprint or a multinational corporation seeking to enhance your sustainability profile, we provide solutions that fit your requirements.

## IRIS CERTIFICATION

**A reliable and safe rail product must be of high quality.** Railway operators **anticipate that** their supply chain **will continue to be competitive and offer tried-and-true options** for cars, **infrastructure, and operational equipment that adhere to strict standards.** **IRIS** is the International Railway Industry **Standard, which is sponsored** by UNIFE (European Rail Industry Association) and **is largely acknowledged** by **railroad stakeholders like** system manufacturers and **railroad operators. based** on the **widely accepted** ISO/TS 22163:2017 standard, which **has particular application specifications** for rail **organizations.** IRIS is moving the milestone to become **an ISO technical standard in addition to the ISO 9001 quality standard.** **The purpose of IRIS is to enhance the supply chain as a whole in order to enhance the quality and dependability of infrastructure, signaling, and rolling stock.** **IRIS CERTIFICATION BENEFITS.:** **Utilize a proven framework to guarantee regulatory compliance.** **Meet regulatory requirements specific to the railway industry with assurance.** **Obtain new markets.** **meet the escalating needs of rail industry manufacturers.** **A leader in testing, inspection, and compliance with international accreditation independently supports IRIS certification. a collaborative strategy to better comprehend your organization's goals, organizational design, and corporate culture.** **NEEDS FOR IRIS CERTIFICATION.** IRIS certification is **attained through a six-step process.** **In order to obtain IRIS certification, the organization must first request it. The organization must do the following in order to receive IRIS certification**

## BEE MARKING APPROVAL

Quality Solutions is a leading in getting approval for BEE star rating .The full form of BEE is the Bureau of Energy Efficiency. BEE was established by the Government of India on March 1, 2002 under the provision of Energy Conservation Act, 2001. With the world facing major departmental calamities of climate change and global warming, there was a need to regulate the emission of Co2 in the environment. Renewable sources like solar and wind energy are identified as capable climate-friendly energy sources of no Co2, these sources have not reached a stage where they can completely replace our existing electricity generation methods. Hence, the BEE was created with a mission to form policies and develop constructive strategies with an intend of self-regulation and marketing principles to achieve energy efficiency.

The BEE star rating can be mandatory as well as optional depending on the type of appliance. For instance, Refrigerators, air conditioners, washing machines, and geysers are eligible for a mandatory label of BEE star rating.

On the other hand, appliances with a little impact on power consumption may not compulsorily need this rating. For example: Air coolers, tube lights, fans, etc.

Star labelling of appliances is one of the most cost effective policy tools for improving energy efficiency and lowering energy cost of appliances/equipment for the consumers. This program aim to foster a sustainable “market transformation” by shifting the markets toward increased sales of energy-efficient star labelled products. Image result for bee star rating"Star rating schemes allow us to compare the operating cost and environmental performance of similar products. This allows us to make better choices and see the potential ongoing future costs and greenhouse gas impacts our decisions may have. Energy labels, on the other hand, are the informative labels affixed to manufactured products in order to provide consumers with the data necessary for making informed purchases.

## ISO CONSULTANCY SERVICES

Our consultants have more than 60 years of experience in helping diverse companies get the most from their management systems.

Our approach to consultancy is no different to that for the implementation of the ISO and BS EN Management Standards. We provide as much support as you require, simplifying the entire process and ensuring it is straightforward and stress free for you.

### WHY CONSULTANCY?

There are many reasons why you may require ISO Consultancy. It could be because:

You want to **improve your current systems**

You need help **auditing your system**

You would like to **explore the idea of Certification** before committing to full Certification

You need to **transition** to an updated standard

And many more.....

### गुणवत्ता मानक 'जेड' के फायदे बताए

#### कार्यशाला

वाराणसी | कार्यालय संवाददाता

एसोसिएटेड चैंबर्स आफ कॉमर्स ऐंड इंडस्ट्री ऑफ यूपी की ओर से शनिवार को होटल हिन्दुस्तान इंटरनेशनल में गुणवत्ता मानक 'जीरो डिफेक्ट जीरो इफेक्ट' (जेड) पर कार्यशाला हुई। उद्योगियों को जेड में पंजीकरण कराकर ऑडिट फीस और कंसल्टेशन फीस में सब्सिडी की जानकारी दी गई।

विशेषज्ञ अभिषेक श्रीवास्तव ने कहा कि केंद्र सरकार की ओर से जेड में पंजीकरण कराए माइक्रो उद्यमों को 80, स्मॉल उद्यमों को 60 और मध्यम उद्यमों को 50 फीसदी की छूट देगी। अब उद्योगों की गुणवत्ता अंतरराष्ट्रीय स्तर पर जेड से पहचानी जाएगी और आईएसओ इसका एक हिस्सा होगा। उद्योगियों को

होटल हिन्दुस्तान में शुक्रवार को 'जेड' पर आयोजित कार्यशाला का दीप जलाकर शुभारम्भ करते अभिषेक श्रीवास्तव (बाएं से तीसरे) व अन्य। • हिन्दुस्तान

जल्द ही एमएसएमई के कार्यालयों से उद्योग आधार नंबर लेकर पंजीकरण कराना चाहिए। एसोचैम यूपी के उपाध्यक्ष अनिल के जाजोदिया ने कहा कि जेड से उद्योग व व्यापार को बढ़ावा

मिलेगा।

इस मौके पर राजेश भाटिया, अवधेश गुप्ता, शेषपाल गर्ग, डीएस मिश्रा, मनमोहन लोहिया आदि उद्यमी मौजूद थे।

### जीरो डिफेक्ट व जीरो इफेक्ट पर कार्यशाला

उद्योगों ने कार्यशाला में लिया बढ़-चढ़कर भाग

#### जनवाणी संवाददाता, सहारनपुर

इंडियन इंडस्ट्रीज एसोसिएशन एवं क्वालिटी कंसाइल ऑफ इंडिया द्वारा जीरो डिफेक्ट व जीरो इफेक्ट पर एक व्यापकता कार्यशाला का आयोजन किया गया। जिसमें उद्योगों ने बढ़-चढ़कर प्रतिभाग किया।

शुक्रवार को आईआईए के कार्यालय पर आयोजित कार्यशाला में चेयरमैन आरके भवन ने कहा कि आईआईए जनपद एमएसएमई सेक्टर को बढ़ावा देने के लिए सदैव प्रयत्नशील है इसी क्रम में संस्था जनपद के उद्योगों के लिए विभिन्न कार्यशालाओं के माध्यम से उद्योगों को जागरूक करती है। उन्होंने संस्था के सदस्यों को जागरूक करने के लिए क्वालिटी कंसाइल ऑफ इंडिया के सहयोग से जेड सिटीफिकेशन पर यह महत्वपूर्ण कार्यशाला का आयोजन किया गया है। क्वालिटी सोल्यूशन नई दिल्ली से आये अभिषेक

आईआईए की मीटिंग से विचार रखते अध्यक्ष आर के भवन। • कक्षा : जनवाणी

श्रीवास्तव ने बताया कि जिस तरह से आईएसओ 9 हजार सर्टीफिकेट, लोन, क्वालिटी कंसाइल ऑफ इंडिया एवं अन्य प्रमाण पत्र आपके उत्पाद की गुणवत्ता दर्शाते हैं। उन्होंने बताया कि एमएसएमई विभाग द्वारा इस योजना को प्रभावित करने के लिए सूक्ष्म उद्योगों के लिए 80 प्रतिशत की सब्सिडी, लघु उद्योगों के लिए 60

प्रतिशत की सब्सिडी एवं मध्यम उद्योगों के लिए 50 प्रतिशत की सब्सिडी का प्रवाधान है। इस दौरान अशोक गांधी, एस कुमार, केआर सिंघल, राजेश गांधी, अजय शर्मा, राजेश शर्मा, मनोज जैन, अरविंद खन्ना, चतक लल्ला, राजेश शर्मा, प्रवेश गर्ग, सुरेंद्र मोहन कलरा, योगेश कुमार, परमजीत सिंह आदि उद्यमी मौजूद रहे।

झाँसी : कार्यशाला को सम्बोधित करते विशेषज्ञ।
